Administrator

Marketer-programmer-designer

Panda-Banda

10.04.2017 – 10.25.2017 (Earn 2500)

10.01.2018 – 10.30.2018 (Earn 2000)

It is computer club and I be here because I have interest in it. Really, I work only because I have been there. I seat ⁱⁿ and computer and make money from internet more than in this job for 10000-15000% *work in computers and proces. that*

I need to make for them site and design. Full-stack developer.

I need to control their place and help customers. Else, I need to help other administrators, work in ~~company~~ ^{Social media administrator} VK group. I have a lot of work in this company and the director is strange person. No workers like him. I think he do a lot for company there are all investors from China, but for Russian realities, it is not good.

He do not pay me more than ⁴⁵⁰⁰ ~~5000~~ rubles and kick me without good reasons.

Builder

I work three times in build place. First for LSR, second for LenSpecSMU. Else, I work for small company, but I cannot said name of organization, because I cannot remember. *He need to pay me 30000*

I work 3 times; they pay me less than 50% of my real benefit. I think there are around 20-25 workdays and I earn around 10 000 rubles for all time. Every time there are 1500 for 1 day of work.

I lift up 300 kg with 3 guys ~~more~~. Lift up more than 500 packs for 65 kg than, I am 66-68 kg.

Make facing on 15th floor on lifter in -15 weather and something more.

Cooker

Brexton

03.09.2018 – 05.09.2018 (Earn 0 rubles)

It is good restaurant, but I cannot work in it for my interest. I see inside of restaurant business and it is nice experience. I like something like this, but ~~these~~ ^{this} is boring.

It is first team that I really like. Other companies have the worst emotions only.

I earn more than money. I earn experience in really clean and good organization.

Jeweler

TrueVape

~01.11.2014-01.06.2015 (Earn 10000 rubles)

I work like engineer-jeweler in vape shop. There are small work for making mechanism for vape ^{technique} ~~technique~~. I like this and work in most of all because it is interesting. I work in friend team and make it sometimes for products from the shop. Sometimes I work in it for my orders and make money from my clients.

Work

Seller

Non-official works described in autobiography. It is the work for myself, like ~~small business~~.

Official:

1) Rostelecom

14.09.2014 – 18.09.2014 (Earn 0 rubles)

14 years old

I work as seller flat-to-flat and call center ^{mangger} worker. ^{for peoples} I need to connect Internet connection and telephony. ^{flat to flat}

I come to rooms and try to sell something. I do it few times because I really do not like it. It is brazenly and disgusting. People watch and think that I was too young. This is my plus for company, but I cannot do it and after 1 day and one sell, I come to call center. I work for it no more 14 calls. Cause of it – bad product and bad method.

After third day, I exit social network's group of sellers and put boss to black list.

2) Tinkoff

26.10.2018 – 29.10.2018 (Earn 0 rubles)

18 years old

I try to work in it ^{Only} two calls, because it is online job. I lose interest from first call and write a lot from these two calls. Firstly, I see politic of company. I see the bad sell methodic and good realization for online workers. I cannot do it, but it will be good experience for see it inside. I think tinkoff bad company.

3) Master-Window

19.12.2018 – 25.12.2018 (Earn 0 rubles)

18 years old

I need to sell windows for people. I come to flats and sale to livers service. {In real I do not sell ^{more} talk, how to help them do it free}

There are story for good stand-up. I really have fun in it and joke for workers. It is the worst that I have seen.

In the result, I make sell and leave from these company. I sell it really strong, I do not want to do it and said it for client, but she see problem from my talk and buy it. In the end, I call to chief to ^{make} deal. Chief said me take more money from her, than he talk about it I turn speakerphone for client and try to make it ^{cheaper} smaller. There are may be 2 000 rubles and I give all to company, I think that I may take it all to home and steal, but I do not want to steal. Even if they are thieves.

I come to 30 flats may be for 4 days and sell one time. ^{In} Other places I only help, because all of clients older than 50 years and they have not money. I ask, have you possibilities to do it with your son or husband? Said about all problems and failures in their window, because I see all of it. Find out cheapest way for them.

Good experience to make good for client deal. Find their demand and train psychology.

~~All my work~~ some kind of my strong portfolio. I show there many my works in my life and I think ~~this work is the~~ biggest work in my life because I work for it 8 months to complete and compare ~~all around~~ from my life.

Of course, I may lose something valuable, but it is only first type of site and I would upgrade it.

I think that my autobiography the most powerful portfolio|

Here I will show that I may save in digital.
