This is my plus for company, but I cannot do it and after 1 day and one sell, I come to call center. I work for it no more 14 calls. Cause of it – bad product and bad method.

There are story for good stand-up. I really have fun in it and joke for workers. It is the worst that I have seen.

In the result, I make sell and leave from these company. I sell it really strong, I do not want to do it and said it for client, but she see problem from my speech and buy it. In the end, I call to chief to make deal. Chief said me take more money from her, than he talk about it I turn speakerphone for client and try to make it cheaper. There are may be 2 000 rubles and I give all to company, I think that I may take it all to home and steal, but I do not want to steal. Even if they are thieves.

I come to 30 flats may be for 4 days and sell one time. In other places I only help, because all of clients older than 50 years and they have not money. I ask: "Have you possibilities to do it with your son or husband". Told about all problems and failures in their windows, because I see all of it. Find out cheapest way for them.
